

## About Éditions Hannenorak

Éditions Hannenorak is established in the heart of the Indigenous community of Wendake. The publisher was founded in 2010 by two Wendat, Daniel and Jean Sioui. Éditions Hannenorak's mission is to promote First Nations culture and literature, publishing a wide range of work, including poetry, essays, theatre, children's literature, and so on. Some titles are also available in English or in an Indigenous language. The intention is to become the standard-bearer for Indigenous literature and make it a point to foster and support this young, evolving art.

Do you write for fun, in your spare time? Have you always dreamed of being published? You'd like to make your voice heard alongside other Indigenous artists? Maybe you've been published already, but you've got a draft longing to get out, or a story put away in a drawer?

This contest is for you!
